Wonderful Demonstration Made by Two Surgeons.

SOUND WAVES HEARD

San Francisco Medicos Assert That by This Experiment the Law of Action of the Senses Has Been Made Known.

San Francisco, Nov. 12.—Before a number of medical men and scientists Sunday Drs. Albert J. Atkins and E. J. Lewis succeeded in charging an electrical current with human electricity to such a degree that sound waves were transmitted and heard through an ordinary telephone receiver. The experiment consisted of an two platinum electrodes to the walls of the living stomachs by means of coper wires. The electrodes wer so connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound. There absoluetly was no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the human stomach human electricity flowed over the wires rendering audible sounds. The electric charge measured from seven to six millivolts on a Weston galvenometer. Col. E. P. Richardson, the subject of the experiment, swallowed the electrodes, and succeeded in retaining them for a considerable time. After a brief rest he was given a drink of whisky, and on again connecting the electrodes with the inner lining of his stomach, the galvenometer registered fiteen miltivolts.

Drs. Atkins and Lewis assert that by this experiment they have demonstrated the law of action of the human senses. The reason that if sound is transmitted over a copper wire which is charged with human electricity, it is reasonable to consider the principle the same when the auditory nerve is charged with the same force. In other words, we hear when the auditory nerve is made sensitive on the electrical principle by which we receive a telephone message. Finally, these scientists claim that by a series of experiments they have proven that digestion is an electro-chemic process, that all life action in the body is dependent upon the activity of the electrical forces within the organism, and that variations of sense manifestation, as sight, hearing, etc., are caused by the different rates of vibration set up by the human electrical currents acting on the special sense nerves.

TAFT'S TOUR.

Secretary of War Sunday Inspected Post at Fort Riley.

Fort Riley, Kan., Nov. 12.—Secretary of War Taft and party, after spending Sunday at the post here, left for Fort Sill, Okla. From there the secretary will go to Fort Sam Houston, Tex.

Secretary Taft, accompanied by Quartermaster General Humphrey, Brigadier General Harry and Captain Hutchinson of the genral staff arrived aat Fort Riley late Saturday night. Sunday morning they inspected the ground that has been laid out for two regiments of infantry, a battalion of engineers and a signal corps necessary to make Fort Riley a brigade post. Secretary Taft expressed himself pleased with the location.

ALL-STATE LEAGUE.

North and South Texas Baseball Magnates Decide on This Course.

San Antonio, Nov. 12.—At a meeting here it was decidded by unanimous vote to organize an all-state league. It will be composed of Dallas, Fort Worth, Austin, Houston, Galveston and San Antonio, and two other cities to be selected from Waco, Cleburne Temple, Beaumont and Lake Charles. Eachc lub will be required to put up a $5,000 cash forfeit to play the season out. Dr. Robbie, who was president of the South Texas league, will be the executive head. The salary lamit and other questions will be settled at a meeting at Houston Dec. 1.

CAUSED BY SPARKS.

Six Hundred Acres of Hay, Fences and Telephone Poles Destroyed.

Paris, Tex., Nov. 12.—A passing locomotive on the Texas and Pacific railway set fire to hay fields six miles west of Paris. The fire burned for twelve hours. It covered 600 acres and destroyed fences and telephone pols The amount of damage cannot be estimated.

DISARMED SUNDAY.

Many of the Discharged Negro Soldiers Shed Tears.

El Reno, Okla., Nov. 12.—The members of companies B, C and D of the Twenty-fifth infantry, regulars, recently ordered dismissed by President Roosevelt as a result of the disturbances at Brownsville, Tex., on Aug. 13, were formally disarmed Sunday. Many of the men, some of whom had been in the service more than twenty years, shed tears when they gave up their guns.

WOMAN IS CRUCIFIED.

Cruel and Unusual Treatmen Was Meted Out.

BOTH HANDS NAILED

In a Kneeling Position and Blood Streaming From Her Wounds Young Wife at Pittsburg Thus Found.

Pittsburg, Nov. 12. — Pittsburg terrorized and likened to a mining camp or a frontier town was the tone of all Monday morning's issues of the newspapers. With three murders, a number of robberies on the highway, accompanied by violence and an attempt at crucifixion in twenty-four hours, added to the large number that has occurred during the past two weeks, there has been such a public demand for extra police that Mayor Guthrie and Director of Public Safety Ridgeway put on a number of extra police without legal provision for their compensation, trusting to the effect of public clamor upon the select and common councils for favorable action upon this move.

The record for twenty-four hours, besides the murder of Henry F. Smith, a young business man of the fashionable East End, who was shot by a burglar who entered the Smith home, is extended by the robbery of Charles R. Lawrence at Fifth avenue and Brady streets, almost in the heart of the city. Lawrence was knocked unconscious with a slungshot and robbed of a gold watch and all his money while going home from the Hotel Schemly, where he is employed as a waiter. He will be confined to his bed for a week.

Nicholas Lewis of Sharpsburg, a few miles from the city, was beaten and robbed and did not recover consciousness for several hours.

Raymond White of Duquesne was also found badly bruised with several ribs broken. He also had been robbed and could give no description of his assailants.

The crucifixion case was brought to light by the screams of a woman in a tenement on Forbes street near the Jones and Caughlin steel mills. Neighbors rushed in and found Mrs. Jean Mitchell, nineteen years of age, in the kitchen huddled in a kneeling position on the floor with both hands nailed to the draining board of the sink with the blood running down her arms. Alongside her hand lay a hatchet, the weapon which had driven the two big nails and which was then used to draw them out.

The woman was unconscious and was taken to a hospital. When she recovered she merely said that when she entered her flat that something struck her on the back of the head and she felt herself drawn toward the sink and her hands pressed down against the board and the two nails driven in.

The police began a search for William Neely, known as William Mitchell, the husband of the woman.

FIREMEN WORKED HARD.

At One Time Much River Front at Mobile Was In Danger.

Mobile, Nov. 12.—Fire which started at midnight Sunday night and was finally extinguished at 4 o'clock Monday morning, destroyed the big sawmill plant of Hieronymous Bros., on the river front, and sparks from which ignited the plant of the Mobile Hard wood company, seven blocks away, caused a loss of about $60,000, with only small insurance. The entire river front south of Madison street was in danger of destruction at one time on account of the high north wind blowing at the time, but the firemen, by hard work, stopped the blaze. A large amount of fine hardwood timber recently purchased by the Lewis Thompson company of Philadelphia was lost in the flames. Several large sea going vesse.s were in danger at one time, but were saved by tugboats coming to their assistance.

WRECKED BY DYNAMITE.

Warehouses of American Snuff Company at Three Places Destroyed.

Nashville, Nov. 12.—The warehouses of the American Snff company at Eddyville, Princeton and Fredonia, Ky., have been wrecked by dynamite. The Eddyville warehouse was blown up early Monday morning. Citizens of that place were awakened by the shock of the explosion, which shattered windows for a wide radius. Bloodhounds were secured and followed the trail of the wreckers for ten miles into Caldwell county.

MAYOR'S PROMPT ACTION.

Shoots to Death Party Who Hurled a Bomb at Him.

Moscow, Nov. 12.—A bomb was thrown at Mayor Reinbot on Tver street at 11 o'clock Monday morning. Reinbot, who was not hurt, quickly pulled out his revolver and shot and killed the man who threw the bomb.

FRIGHTFUL COLLISION

An Immigrant and Freight Train Come Together.

FORTY LIVES TAKEN

Locomotives on Baltimore and Ohio Traveling at Terrific Speed Are the Cause of a Terrible Disaster.

Valparaiso, Ind., Nov. 12.—By a collision between a train on the Baltimore and Ohio railroad containing 135 immigrants and other persons and a freight at Woodville, ten miles north of here, at an early hour Monday morning, at least forty persons were reported killed at noon Monday. Thirty-five others were injured. The trains collided head-on.

Numbers of the bodies were consumed in the coaches, which caught fire.

The passenger train was en route to Chicago and was scheduled to arrive in that city at noon Monday.

All the physicians at Valparaiso went to the scene on a special train.

Physicians in charge of the Mercy hospital at Chicago were notified to prepare for the injured.

Six coaches of the passenger train were consumed and three freight cars.

The fireman of freight train is dead and Fireman Culler of the immigrant train was badly hurt. It is believed he cannot live. Engineers Ennman and Burke of the two trains and Baggagemaster Snyder of the immigrant train were badly injured. Both engines were turned over on the south side of the bank and fell clear of the main track.

CHIEF ENGINEER REPORTS.

Favors Expenditures For Complete Engineering Work on Fortifications.

Washington, Nov. 12.—General Alexander Mackenzie, chief engineer, has reported to the secretary of war that $16,052,431 will be required for complete engineering work upon fortifications projected by the board, conveyed under the president's order of Jan. 31, 1905. General Mackenzie states the following amounts could be profitably expended during the next fiscal year in river and harbor works, as follows: At Sabine Pass, Texas, $250,000; Galveston harbor, $450,000; Galveston channel (along wharf front), $150,000; Galveston ship channel and Buffalo bayou, $300,000; Brazos river (Old Washington to Waco), $225,000; Brazos river (mouth), $137,500; Trinity river, Cypress bayou and Red river above Fulton, $510,287; Mississippi river (commission's estimate), head passes to mouth of Ohio with salaried commission, $3,000,000; improving harbors of Natchez and Vidalia, La., $300,000; harbor at New Orleans, $300,000.

RECEPTION TO CAMPBELL.

Executive-Elect and Lady to Be Guests of Governor and Mrs. Lanham.

Austin, Nov. 12.—Governor-elect Campbell and lady are to be tendered a reception Thursday by Governor and Mrs. Lanham.

Notice of hearing was issued by the railroad commission for Nov. 27 to consider the petition of the Wichita Falls and Northwestern railway praying for an order allowing that line to cross at grade of tracks of Fort Worth and Denver City and Wichita Falls and Oklahoma railways at Wichita Falls.

The railroad commission has refused the application made by John H. Kirby to have the Burr's Ferry, Brundell and Chester railway in east Texas be placed under the jurisdiction of the commission.

AT FORT SILL.

Salute of Twenty Guns Welcomed Arrival of Taft and Party.

Fort Sill, Okla., Nov. 12.—Secretary of War Taft and party arrived at Fort Sill in a special train Monday morning. Their arrival was duly announced by the Thirteenth cavalry in firing a twenty-shot salute. Secretary Taft is making an inspection of Fort Sill and the reservation with a view to making this a brigade post. He dispatched a messenger to Lawton to ask for a map of the reservation compiled two years ago by Judge Frank P. Gilcrease. Escorted by Major Taylor of the Thirteenth cavalry and with this map in his hand the secretary is looking over the reservation.

MOTION TO DISMISS.

Hoyt Holds Kansas Has No Interest In Indian Territory.

Washington, Nov. 12.—In the supreme court of the United States Solicitor General Hoyt filed a motion in behalf of the government to dismiss the case of the state of Kansas vs. the United States for possession of Indian Territory lands claimed to have been granted to the Missouri, Kansas and Texas railroad and which are estimated to be worth upward of $10,000,000. The motion was based on the contention that Kansas had no substantial interest in the lands.

STEHMAN SLAYS SPOUSE.

They Were Living Apart and She Refused to Return to Him.

Harrisburg, Pa., Nov. 10.—Jacob Stehman, a boilermaker, employed at the Pennsylvania Steel works at Steelton, near here, shot and killed his wife in crowded Broad Street market. Stehman and his wife had been living apart for some time, she being employed as housekeeper for a York county trucker, who had a market stand. Stehman went to the market Saturday, and, after failing to persuade his wife to return to his house, shot her.

HOCH ELECTED.

Plurality the Smallest Ever Given a Gubernatorial Candidate In Kansas.

Topeka, Nov. 12.—Complete officials returns from ninety-six out of 105 counties give Governor Hoch a plurality of 2,060 votes over William A. Harris. The nine counties are all small ones, but will probably bring Governor Hoch's plurality down to 2,000 or less.

GOVERNOR HOCH OF KANSAS.

The Democratic campaign managers now concede the election of Governor Hoch, but claim that his plurality is considerably less than 2,000. The Democratic leaders claim that they are highly elated over the showing made by the part at the recent election, and claim that the cutting down of Hoch's plurality of nearly 67,000 in 1904 to less than 2,000 in 1906 is in itself a great victory.

Governor Hoch's plurality is the lowest ever given a candidate for governor of Kansas.

LAST WIDOW DIES.

Mrs. Esther Sumner Damon Passes Away at Advanced Age.

Rutland, Vt., Nov. 12.—Mrs. Esther Sumner Damon, said to be the last surviving widow of a Revolutionary war veteran, died at her home in Plymouth at the age of 103 years. She was married in 1833, when she was twenty-one years of age, to Noah Damon, who was then seventy-five years of age. Damon served in the Revolutionary war, having enlisted in 1775.

DEATH OF MRS. J. T. PARKER.

Mrs. J. T. Parker died Sunday night at her home in the Cottonwood community. She had been sick only a few days and the seriousness of her illness did not manifest itself until shortly before her death, which was a great shock to the family and friends.

Mrs. Parker was a Daughter of Mrs. Lucy Thomas and about 25 years old. She leaves a husband and two children. Mrs. Parker was a sister of Mrs. Joe Sample, J. H. Thomas, Mrs. J. H. Cobb and Miss Lou Thomas. She was a member of the Baptist church and much beloved by all who knew her.

The funeral service was conducted yesterday afternoon at 3:30 o'clock by Rev. J. M. Bullock of this city, and the remains were laid to rest in the cemetery at Cottonwood church.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Breathing Hyomei—Sold Under Guarantee.

The only scientific and common sence way to treat catarrh of the nose and throat is by a local application that will kill the catarrhal germs.

Ordinary stomach dosing is worse than useless. Taking medicine into the stomach to cure catarrh of the head can have no good effect, and often leads to serious derangement of the digestive organs.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated healing air penetrates to the most remote parts of the nose, throat, and lungs, searches out and kills all catarrhal germs, and soothes and heals any irration in the mucos membrane.

E. J. Jenkins' faith in the wonderful merit of Hyomei as a cure for catarrh is shown by the guarantee he gives with every Hyomei outfit that the money will be refunded unless the treatment gives satisfaction.

A complete Hyomei outfit, consisting of a pocket inhaler, a bottle of Hyomei and a medicine dropper, costs but $1, extra bottles of Hyomei, if needed, 50 cents. E. J. Jenkins gives his personal guarantee to refund the money if Hyomei does not relieve, so that you run no risk at all in buying this reliable remedy.

DEATH OF MRS. R. HUDSPETH.

Mrs. R. Hudspeth of the Tabor community died Sunday night at the home of her sister, Mrs. D. Tullis, near Wheelock, where she was visiting with her husband, Capt. Robert Hudspeth. Her illness was very brief and her death entirely unexpected to the family and friends.

Mrs. Hudspeth was a daughter of Mrs. Lena Nichols of the Tabor community, 24 years old and a member of the Christian church. Her husband, mother and several brothers and sisters survive her, and the sympathy of many friends goes out to them in their deep bereavement.

The funeral will be held today at the Bickham cemetery.

SHOT THROUGH SHIRT.

Mr. McDonald's Driver Had Miraculous Escape From Death.

Rio Grande City, Tex., Nov. 10.—The rangers who were shot at near this place, and killed four of their assailants, dangerously wounded another and captured two others, were at the Casita ranch on the road to this place at the time. They met a hack containing armed men, who, without warning, opened fire on them. It arrived about 9 o'clock Thursday night.

Captain McDonald called out to them to stop; that they wer officers. Two of the men jumped out and at once fired, the assailants cursing the officers.

The rangers then returned the fire and a pitched battle followed. The team ran away, Captain McDonald firing from it. Finally he jumped out and fought on foot. While the firing raged in front, the rangers were fired on from a house at the back.

After 100 or more shots were fired, the assailants apparently fled, one remaining dead on the ground.

McDonald's driver was shot through the shirt and undershirt, but his body was not wounded. Three rangers were left to hold the battlefield, Captain McDonald and the others coming to town. The sheriff, Deodro Garcia, immediately organized a force and went out, leaving the rangers on guard, who meanwhile had captured two men believed to have been engaged in the attack. The sheriff's examination developed the other dead and wounded men. The hack and several carbines of the assailants are in the hands of the officers.

The necessity of preserving the lives of citizens against any attack from an organized band of men has prevented a full investigation of the Welch assassination. Evidence at hand shows it was unquestionably political. Officers have a clew to the assailants, but are unable to follow it up without bloodshed. Several suspected parties are already in Mexico. It is believed that the attack on the rangers was an attempt to delay the investigation further.

The coroner's inquest fully confirmed Captain McDonald's account of the attack. The hack of the assailants was found with two dead men in it. Another dropped on the road; another managed to jump a fence and died hidden in a field. The wounded man, Manuel Ozeuna, testified that there was no plan to attack, but all were armed and drunk; that the shooting was begun by Juan Garcia Perez, who, after hearing Captain McDonald say, "Hold up, there; we are rangers," jumped out of the hack, crying, "Come on, boys; kill the ——," and turned loose with his rifle; that they fired three shots before any were fired by the rangers; that no other parties participated in the attack except himself and the four men killed.

The parties were handed over by the coroner to relatives for burial. The wounded man was jailed.

NEARLY ONE HUNDRED.

Democrats Lack but One of having That Number of Delegates.

Guthrie, Nov. 10.—Democrats elected ninety-nine delegates to the constitutional convention, the Republicans twelve and the Independents one.

In the Seventy-sixth district C. J. Jones, a negro candidate, defeated by S. N. Haskell, Democrat, over 2,000 votes, will contest. He claims negroes were not permitted to vote.

In the One Hundred and Third district S. A. Weeks filed notice of contest. He claims that there were more votes cast than there are voters.

C. O. von Keller of Coalgate, an election judge, was held up, and the ballot box taken away from him.

GREATEST OF KIND.

El Paso Man Has Secured Valuable Exclusive Fishing Rights.

El Paso, Nov. 10.—What is perhaps the greatest monopoly of its kind in the world has just been acquired by John C. Miller, a mining engineer of El Paso, through a concession granted by the government of the republic of Mexico, of the exclusive fishing rights on the west coast of Mexico from Guaymas, on the north, to Manzanillo, on the south, and on the east coast from from parallel 24, on the north, to the Bay of Campache, on the south, including all the rivers, bays, inlets, and also the lakes for twenty miles inland.

FOUR COMPANIES LEFT.

Ordered to Fort Reno and Carired Along Ball Cartridges.

San Antonio, Nov. 10.—Orders were received here to send four companies of the Twenty-sixth infantry to Fort Reno, and they left on a special train. No information could be obtained as to the status of affairs at Fort Reno, but there was a report that the negroes who were recently dishonorably discharged on order of the president was causing much trouble there, and that they are to be disbanded just as soon as possible. The troops leaving here had ball cartridges.

DUE TO REPORTS.

Claimed Complete Justification Will Be Shown at Trial.

Baton Rouge, Nov. 10.—Congressman elect G. K. Favrot's reasons for killing Dr. R. H. Aldrich few days ago were announced as follows, in a signed statement by his three attorneys:

"Judge George K. Favrot authorized us to say that the killing of Dr. R. H. Aldrich resulted from his persistent circulation of reports of such a character as to force Judge Favrot to act. Complete justification for such action will be shown at the trial of the case."

Chisholm's Trial Begins.

Birmingham, Nov. 10.—The trial of Alexander R. Chisholm, former paying teller of the First National bank, charged with embezzlement, was begun in the United States circuit court here Friday. The session was devoted to the reading of the indictment and the swearing of witnesses.

BY CARNES & WALLACE.

BRYAN, TEXAS, NOV. 13, 1906.

"Power and Power Transmission," by Prof. E. W. Kerr, has been recognized by the United States government as an authority on the subject indicated, and has been made a requisite for admission to the United States artillery. Prof. Kerr is a graduate and former instructor of the A. and M. College and issued the first edition of the work referred to while at the A. and M. He is now professor of mechanical engineering at at the Louisiana State University at Baton Rouge. Prof. Kerr is a native Texan, from Collin county, and married Miss Rita Sbisa, daughter of Mr. and Mrs. B. Sbisa of College.

As soon as possible the Brazos River Navigation Company will be chartered with Mayor Baker of Waco as president, C. R. Kitchell of Galveston as secretary and J. H. P. Davis of Richmond as treasurer. The capital stock will be $50,000 and the construction of a large passenger and freight steamer adaptable to the channel will be immediately commenced. Meanwhile a fleet of tugs and barges will be installed in the freight service. Transportation by water from Galveston to Velasco and thence up the river ultimately as far as Waco will be offered for freight and passengers.

HON. W. C. DAVIS.

Under the head of "Pen Pictures of Texas Legislators" the Houston Chronicle of Sunday makes the following mention of Hon. W. C. Davis, representative elect from Brazos county:

W. C. Davis, lawyer, aged 28 years, was born in Alabama, and came to Texas with his parents at the age of 4 years and settled on a farm in Walker county. He received his early education in Walker and later attended Baylor, where he graduated with honors. He attended the university law school, where he completed his education, but the next year he went to the Chicago university and took a course in political economy. He was granted a license to practice law at Anderson, in Grimes county, three years ago. For the past five years he has resided in Bryan and will represent Brazos county in the next legislature. For two years he was principal of the Bryan high school. He is a platform man and is opposed to leasing convicts to private individuals.

ROYALL-SMOOT.

Mr. A. H. Royall and Miss Ollie Bertha Smoot of the College Station community were married in this city Sunday afternoon at 3:30 o'clock at the home of Rev. G. A. Foster, the latter officiating. The wedding was quietly solemnized and witnessed by relatives and a few friends.

The groom is a son of Mr. and Mrs. R. R. Royall and an intelligent, industrious and worthy young man who is well known and popular. He is an employee of the postoffice in the rural delivery service.

The bride is a daughter of Mr. and Mrs A. Smoot, lovely in person and character, and much esteemed by all.

The Eagle extends congratulations to the happy young couple and joins other friends in wishing them abundant happiness.

CALVIN FILES CHARTER.

Farmers' Union Cotton Company of Dallas Name of Organization.

Austin, Nov. 10.—E. A. Calvin of Dallas, president of the Farmers' Union, was here and filed the charter of the Farmers' Union Cotton Company of Dallas, with authority to transact business at Houston, Galveston and other points in the state. The capital stock is $100,000 and the incorporators are E. A. Calvin, B. F. Chapman and A. H. O'Keefe. The object of this corporation is to be a clearing house for the various warehouses of the organization throughout the state. Mr. Calvin said that the Farmers' Union expects within two years to have warehouses at every cotton point in Texas, and will control completely the output of cotton in Texas. He said there are now about 150 of these warehouses in the state.

The Superba Manufacturing Company of Dallas, Houston and Fort Worth, capital stock $100,000; purpose, to manufacture medical devices; incorporators, Charles O. Farrington, Thomas Watson and H. A. Meyer, filed its charter.

CASES POSTPONED.

Absence of Numerous Witnesses Rendered This Course Necessary.

Austin, Nov. 10.—Assistant Attorney General Pollard has returned from Del Rio, where he went to assist in the prosecution of alleged Mexican revolutionists charged with robbery, etc. He said that the cases were postponed until the 20th inst., as many witnesses failed to show up. Mr. Pollard says the tension there on election day was intense.

The governor received a telegram from Captain W. J. McDonald, in command of the state rangers at Rio Grande City, in which he stated that everything there was quiet Saturday. No further outbreak had occurred and the situation was well in hand.

HOTEL LICENSING.

Startling Statement Made About Condition of Shop Girls.

Chicago, Nov. 10.—Club women, representing the Chicago Woman's club, the Cook County League of Women's Clubs and the Woman's Legal Aid society, made a strong appeal before the council license committee in favor of the Comford ordinance, licensing hotels. Mrs. Alice E. Bates, Mrs. Louis Greely, Mrs. Charles Hendotin and Mrs. Wilbur Jackman were the speakers, who told the aldermen in plain terms that the fate of thousands of innocent girls was bound up in the regulation of the down-town hotels and that they proposed to see safeguards thrown about them.

Miss Lucy Page Gaston sprang the sensation of the session in a discussion of the situations surrounding the underpaid shop girls. She said: "Chief of Police Collins recently detailed two detectives to watch a certain down-town store," said Miss Gaston. "Their report to him showed thta in the course of a week they had traced sixty girls from that one place to the various down-town hotels. They were all accompanied by men. This think has grown to serious proportions and is searing the lives of hundreds of hard-pressed girls. These hotels ought to be utterly wiped out."

The committee decided to resume the discussion a week hence.

MACHINE GUN STOLEN.

Of Latest Model, and Large Supply of Cartridges Also Ttaken.

St. Petersburg, Nov. 10.—The most recent exploit of St. Petersburg Revolutionists is the theft of a machine gun of the latest model and a large supply of cartridges. It is presumed an expert gunner is involved, because all necessary accessories were simultaneously abstracted from the armory. The prefect of police issued an order specifically emphasizing the necessity of recovering the gun.

THE NEW VISIBLE FOX

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotol bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire line is visible all the time.

THE KEY TENSION—The force required on the part of the operator to print a letter is only 2½ ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

A. AND M. 29, INDIANS 6.

Farmers Had an Easy Game First Half —A Large Crowd Present.

The game of football long looked forward to between the A. and M. College and the Haskell Indians was played on schedule time yesterday afternoon on College grounds and furnished lovers of the sport amusement to the entire satisfaction of the large crowd that was present.

The Indians kicked off in first half and were unable to secure the ball and keep it for any time, the farmers making good use of themselves; and when time was called the score was twenty-three to nothing in favor of A. and M.

The second half promised unusual excitement, the Indians playing new tactics, and were sucessful in making a touchdown and kicking goal. They have a strong team; are all big husky fellows and are hard to go through, but the farmers played just around the tackle and the ends successfully and made good gains. Just as time was called in the last half A. and M. kicked goal from placed ball on field, but this was not counted as time was up.

The game as a whole was a pretty one and plainly shows that the A. and M. boys will give 'Varsity a tussel on Thanksgiving day if not successful enough to go away victorious, which now seems probable.

TO INVESTIGATE.

After McCarren and Kings County Democratic Organization.

New York, Nov. 10.—By a vote of 30 to 13 the Democratic state committee adopted a resolution to investigate the conduct of the Kings County Democratic organization, headed by Senator Patrick H. McCarren, during the recent campaign. A delegation of Brooklyn Democrats, headed by Patrick Hayes, warden of the Kings county penitentiary, preferred charges. It was alleged that McCarren had knifed the head of the ticket and urged his followers to do the same.

The state committee also took steps to defend any action that may be taken by the Republicans to overthrow the pluralities which seem to exist in favor of the Democratic candidates an the state ticket from lieutenant governor down.

Senator McCarren declared in reply that at a meeting of the Kings county committee he had said something about Mr. Hearst.

"And if the opportunity presents," he declared, "I shall repeat them. When a fellow hits you on the jaw I do not believe in turning the other cheek. I believe in striken back straight from the shoulder. If, on another occasion, I could make my statements regarding Mr. Hearst any more emphatic I should certainly do so. Mr. Hayes, who is here opposing me, never voted a Democratic ticket in his life. I never voted a Republican ticket. I deny that I knife the ticket of the Buffola convention. As to Mr. Hearst, I regard him as a bolter, not myself. And the Kings county organization regarded him as a bolter."

MONROE EDGE

NEEDS OF SOUTH.

Chairman Cox Says She Must Have More and Better Laborers.

Nashville, Nov. 12.—The second annual session of the Southern Immigration and Quarantine conference was called to order Monday at the capitol. The conference was organized a year ago at Chattanooga and its efforts resulted incidentally in the enactment of better quarantine regulations by the Federal government. This year the necessity for quarantine is not pressing as last fall, and that question, while it will be discussed to some extent, will give way to the consideration of immigration.

The real purpose of the conference is to bring about a more equitable distribution of immigrants who reach the United States from foreign shores. The idle negro class causes some apprehension in the minds of immigrants, according to those believed to be well informed, and this operates against the south receiving what she thinks is her proper share of laborers from abroad. Various plans were suggested for ridding the south of worthless negroes, and the race question was early injected into the discussion.

Governor Cox, who is permanent chairman of the conference, called the delegates to order, and in his address of welcome advocated the establishment of a bureau of immigration by each southern state with sufficient appropriations to send agents to north European countries, England, Ireland, Scotland, Switzerland, France, Germany, Wales and Sweden and secure labor to locate in the south.

"The crying need of the south," Governor Cox said, "is more and better laborers, especially for farm and cotton mills." The governor thought it would be a good move to send agents to the northwest states in an effort to turn immigration from Canada and British Columbia to the south.

"The condition in the south must first be made favorable. The question at this time," he said, "standing as a menace to peace and hindrance of southern development is a problem that must be solved by the south, but the aid and sympathy of the north is almost as essential.

"If they do not help us," continued the governor; "if they do not repeal the fourteenth and fifteenth amendments to the constitution, then let us here resolve that we will write in the fundamental law of every southern state a guarantee to the negro of protection to life, liberty and pursuit of happiness, but forever denying to the vicious and ignorant all political rights."

He recommended the adoption of more stringent vagrancy laws.

The response was made by Dr. Irion of New Orleans, Louisiana state health officer, who represented Governor Blanchard.

FENBY SHOT.

Prominent Railroad Man Receives a Serious Pistol Wound.

Dallas, Nov. 12.—While examining a revolver at his residence in this city at 8 o'clock Monday morning Richard Fenby, auditor of the Texas and Pacific Railway company and a leading citizen of Dallas, accidentally shot himself under the chin, the bullet ranging into his head. His condition at a late hour Monday afternoon was pronounced by the attending physicians as serious, with the chances favorable to his recovery.

Mr. Fenby, who has been connected with the Texas and Pacific road for several years, is one of the most prominent railroad men in the southwest. He is also the possessor of considerable Dallas real estate.

SAME DIVORCE LAWS.

Setond Meeting Receives tho Committee's Report.

SIX REASONS NAMED

They Are Infidelity, Felony, Bigamy, Desertion, Habitual Drunkenand Intolerable Cruelty, and No Others.

Philadelphia, Nov. 13.—The National Congress on Uniform Divorce Laws held its second meeting in this city Tuesday. The first meeting was held at Washington nine months ago, and adjournment taken to permit the committee to draft a bill on uniform divorce laws, to be presented to the legislature of all the states. The bill as drawn by the commitee names six causes for which divorce may be granted. They are: Infidelity, felony, bigamy, desertion, habitual drunkenness and intolerable cruelty.

The committee recommends that the various legislatures be asked to agree on a period of residence before application for divorce. It is expected by the committee that this recommendation, if adopted by all the states, will decrease the number of migratory divorces.

Delegates from all parts of the country attended the session, over which Governor Pennypacker of Pennsylvania presided, Judge W. H. Staake of this city, acted as secretary.

BOMB WAS CHILLED.

Cold Atmosphere Was What Saved Life of Russian General.

Irkutsk, Siberia, Nov. 13.—It was owing to the chilling of the explosive that the bomb thrown at General Rennenkampff, governor of Transbaikal, failed to injure him. Rennenkampff's two aides-de-camp escaped with slight contusions.

General Benon is on the Terrorist death list on account of his severity in repressing mutinies and armed revolts in Transbaikal in December.

The would-be assassin lay in wait for the general on Amur street, where he was accustomed to promenade, and as the general approached the Terrorist aros from a bench, threw the bomb and started to run, but was immediately captured, the general aiding in seizing him. A revolver was found on the prisoner's person. Within four hours after throwing the bomb he was placed on trial before a drumhead courtmartial. The prisoner, who has not been identified, admits he is a member of the Social Revolutionary organization.

CARONIA'S CLOSE CALL.

Fire Broke Out During Her Voyage, but Was Extinguished.

Queenstown, Nov. 13.—On the arrival of the Cunard line steamer Caronia off Rooche's Point, at the entrance of the harbor, it was reported that fire broke out on board her during the voyage, but that it was extinguished. The fire was discovered in the electric fan room at 1 o'clock in the morning after the Caronia had passed Brow Head. The flames were extinguished before the vessel reached Queenstown. All precaution possible was taken against eventualities, but there was never any real danger, and only momentary excitement among the passengers who were not aware of the outbreak until the fire had been subdued.

REPORTED SUNK.

If a Disaster Occurred, Floating Mines Were the Cause.

Victoria, B. C., Nov. 13.—According to advices by the Empress of China, which arrived Tuesday afternoon, a telegram to a Japanese newspaper from Vladivostok reports great excitement was occasioned there by the report that the converted cruisers Sitka and Kelima, which have been doing patrol duty at the seal rookeries off Copper island, had been sunk by a Japanese destroyer in the neighborhood of the island. The Japanese discredit the report, saying if such a disaster has occurred it was probably due to floating mines.

APPROACHES CLIMAX.

Recovery of Castro Is Believed to Be an Impossibility.

Caracas, Nov. 13.—Advices from Island of Curacao are that the illness of President Castro of Venezuela is reaching a climax and that his recovery is impossible.

The Venezuela rebel leader, Montilla, who is again in arms, has twice defeated government troops and has threatened to pillage the town of Barquisimeto. Serious disturbances, it is still asserted, are feared in case of Castro's death.

ILL BUT SHORT TIME

General, Who Figured Prominently In Cuba During the War With Spain, Breathes Last on California Ranch.

Bakersfield, Cal., Nov. 13.—Major General James R. Shafter, retired, died at 12:45 Monday at the ranch of Capt. W. H. McKittrick, his son-in-law, twenty miles south of this city, after an illness of seven days, despite the best medical attention available in California.

While returning from the polls last Tuesday General Shafter contracted a severe chill, which was augmented by a slight indisposition and necessitated confinement to his bed. Dr. T. W. Mith, the local family physician, was summoned. The patient failed to improve, and Dr. A. Sharer was called for consultation. The real obstruction was discovered, but it was determined that this was a secondary affliction brought on by an acute attack of pneumonia. Wednesday, Thursday and Friday no improvement was noticed. Saturday afternoon a slight rally was detected, and relatives and physicians were exceedingly hopeful, but the change was short lived.

At 10 o'clock a sinking spell seized the veteran. Dr. Herstein of San Francisco, who had been called, arrived shortly after midnight Sunday morning, and after being hurriedly driven to the general's side a consultation was held with the other physicians. It was stated that Dr. Herstein determined upon an operation of the intestinal obstruction. But the physicians would forecast nothing but fatal results in such an operation. Dr. Herstein returned to San Francisco, all hope of saving General Shafter's life having been abandoned. The patien was left in charge of Dr. Mitchell.

Always cheerful and hopeful, his mind clear and cognizant of his critical condition, the patient retained consciousness until 9 on Monday morning. The physician sent from San Francisco performed a great work in keeping life. The general lapsed into unconsciousness at 9 o'clock and remained in that condition until death.

Captain McKittrick, the general's son-in-law, and daughter and James W. Shafter, a brother, were at the bedside when the end came. Interment will be at Presidio cemetery, near San Francisco.

CURL CUT AWAY.

Woman Shoots at an Officer and Clips Hair of a Lady.

Shawnee, Okla., Nov. 13.—A woman, whom they were seeking to arrest, shot at Patrolman Hewitt and Special Officer Moore on a Rock Island train here. The bullet narrowly missed both officers and embedded itself above a lady's head, carrying a curl of her hair with it. The officers overpowered the woman and arrested her.

TRAIN HELD UP.

Bandits Escaped With Suit Cases and Seven Hundred Dollars.

Reno, Nev., Nov. 13.—Armed bandits held up the overland limited westbound train at Carlin and escaped with the suit cases of passengers and money sack of Conductor Conn. It is stated that they secured about $700 in all. A posse was formed and a pitched battle took place at the edge of the town, 100 shots being fired. No one is known to have been injured.

SIX KILLED.

Six Others Seriously Injured by the Explosion of a Boiler.

Cleveland, Nov. 13.—Six men were killed and five seriously injured when a boiler in the power house of the Lake Shore railroad in Collinwood, a suburb of Cleveland, blew up. The firemen were working close to the boiler building on the foundation for a dynamo when the explosion occurred. They were all in the mouth of a subway facing the boiler, and were scalded to death with the immense volume of steam which shot out.

Rare Bird Killed.

Paris, Tex., Nov. 13.—R. L. Stell killed a snow goose at Lake Gordon. The bird is very rare in this clime. It is a Canada fowl, and hardly ever comes this far south. It was white all over except the tips of its wings, which were black.

Gets Two Years.

TROLLEY LINE SURVEYS.

Engineer McDaniel Has Gone to Houston to Make Maps and Profiles.

Haying completed trolley line surveys west and east of the railroads, Engineer W. J. McDaniel, who is in the employ of Mr. Edward Kennedy, the promoter, went to Houston yesterday to make maps and profiles of the routes.

As previously stated, the first route surveyed passed down Main street and out through the Knowles, Clarke, Gentry and other property west of the two railroads. The second line was run east of the railroads and comes into town by the Texas Woman's College and the graded school building, thence over some of the intervening streets to Main street.

The Eagle learns that up to this time the estimates have not been completed and that neither route has been determined upon as the permanent one. The city council, which meets tonight in regular adjourned session, will be asked for the necessary franchises, and it is likely that the contract will be signed in the next few days. Mr. McDaniel will be the engineer in charge of the construction work and intimates that the policy in building will be a time saving and aggressive one.

Charged With Presenting on Stage a Copywright Play.

Dallas, Nov. 13.—An indictment was returned against Albert Taylor of the Albert Taylor Stock company at a recent term of the United States court at Abilene. The complaint is for the producing at Dallas of a play entitled "When We Were Twenty-One." The indictment alleges that the play was produced last summer at Cycle Park theater without the consent of the owner and proprietor, residing in New York City.

Mr. Taylor was arrested at Wichita Falls, and bond was fixed in Commissioner Mays' court at $200 for the appearance of Mr. Taylor at the January term of the United States district court at Dallas.

United States Attorney Atwell states that so far as he knows, this is the first case which has arisen under the new copyright law passed at the last session of congress.

Known as Southern Immigration and Educational Conference.

Nashville, Nov. 13.—The Southern Immigration and Educational conference effected a permanent organization, to be known hereafter as the Southern Immigration and Industrial association, and elected the following officers: President, D. C. Heyward, Columbia, S. C.; secretary-treasurer, J. R. McMullen, Gasden, Ala. The next annual convention will be held at Birmingham, Ala., the second Tuesday in November, 1907.

HURLED FROM TRACK.

Train Went Into Embankment, but No Fatalities Resulted.

St. Louis, Nov. 13.—A westbound Missouri Pacific passenger train while running at full speed was hurled from the track by spreading rails near Glencoe, twenty-seven miles west of here, Tuesday. Beyond cuts and bruises all on board miraculously escaped. The entire train plunged into an embankment and the track was badly torn up for 200 feet.

SHOTGUN, PISTOL, KNIFE.

These Were the Weapons Used In a Sanguinary Encounter.

Houston, Miss., Nov. 13.—A. E. Clements and Hugh Austin met in a road near here and fought a veritable duel. Clements emptied both barrels of a shotgun at Austin, missing him. The latter used a pistol and knife, killing Clements. Domestic affairs are given as the cause.

Great Van Amburg Circus Pleased—Every Feature Splendid.

An advance herald says:

If it ever comes back to town, and you have not already seen it, be sure to go. It is without doubt superior to any circus traveling the United States.

It is the cleanest, most refined and up-to-date circus in the world. There is an absence of grafting or grafters that is noticeable. The gentlemen in charge do not carry that old-time circus swagger about them. They are all neatly dressed, polite, and look after the individual comfort of their patrons, not giving their entire time and attention to gathering in the sheckels.

If the Van Amburg circus ever returns to this city it will have to have two canvases as large as the one used yesterday to accommodate the crowd. At 8 o'clock every reserved seat was taken, the only available room being on the ground in front of the seats. The tent was packed almost to suffocation, and despite the fact that it was too warm to be comfortable, nobody left until the last race was finished.

The work of the acrobats alone was worth twice the price of admission.

The finest lot of trained horses in the United States, the daring bareback riders, the trapeze and bar performers and the funniest set of clowns ever carried with a circus were all interesting.

The Van Amburg Circus is growing larger and better every year. It will always be welcome in Atlanta. —Atlanta Consitution.

The books were the property of Mrs. Kipling, the author's mother. A second copy of the first mentioned work was sold at this sale for thirty pounds ten shillings, or just one hundred pounds less than the famous price of the first copy of this boyish effusion, which was sold in London a year ago.

BY CARNES & WALLACE.

BRYAN, TEXAS, NOV. 14, 1906.

Some of the unreconstructed Boers in South Africa are again making trouble for the British.

The way Colonel Campbell is being beseiged by office seekers at Houston leads to the conclusion that he is the principal carnival attraction and has knocked out Nottoc.

"Don't be a Dumper!" The Farmers' Union in Texas coined the phrase, and it is expressive. It means that the individual farmer, cotton grower, shall not dump his cotton on the market, especially when the current price is below ten cents. Rushing cotton to town and dumping it in big lots on the market has a tendency to increase port receipts and to lower prices.—Waco Tribune.

The immigration agents of the various railroads entering Texas say that thousands of people from the north and east are making inquiries about conditions in the Lone Star State, and already prospectors are coming in in large numbers. There is plenty of room for a good class of people, and they should be encouraged to locate.—Sherman Register.

The A. and M. boys scalped the Indians with neatness and dispatch. All they need now to make them happy is to waltz 'Varsity to the same tune.

Waltz them around again, Puckett,
Around, around, around;
They are not so many,
In fact hardly any;
Don't let them score on their ground.
You'll feel like a ship on an ocean of joy,
When the girls softly whisper, "You're the boy!"
Waltz them around again, Puckett,
Around, around, around.

The gratifying information comes from the census bureau that pauperism is steadily on the decline in the United States. With 80,000,000 population there are only 163,176 paupers in almshouses. In 1880 the ratio of almshouse paupers was 132 to each 1000. In 1890 the figures dropped to 117, and in 1903 to 101. It will be noted also from general observation that the number of tramps has been greatly decimated during the past ten or fifteen years. These facts indicate a prosperous country and busy people.

The Baltimore Sun believes that the recent election reasonably considered, affords much hope for the democratic party, and it is difficult to see it in any other light. The republican majority of the present house of representatives has been reduced to less than sixty in the next congress, democratic governors were elected in North Dakota, Rhode Island and Minnesota, New Jersey and Kansas were all but carried, Missouri was reclaimed and the new commonwealth of Oklahoma indicated that it would take its piace in the Solid South. The one disappointment was the loss of democratic senators, bringing the democratic membership of the senate to less than a third. This was brought about by the loss of Colorado, Montana, and Idaho. Oklahoma will soon send two democrats to the senate, but the republicans will for two years from March 3 next control the senate by a two-thirds majority.—Houston Post.

OIL INDICATIONS AT MOUND PRAIRIE.

Caldwell, Texas, Nov. 12.—People coming from Mound Prairie report that there are strong indications of oil in paying quantities in the well being bored there. OUT OF SORTS.

People Not Really Sick Are Often Most In Need of Care.

The people who actually are most in need of kind words and medical treatment are not those who are really sick, but just "out of sorts."

The old-time energy, force, strength and happy spirits are lacking; the physical and mental powers are flagging; there is poor appetite, and they cannot get the good out of the food they eat. In nine cases out of ten, this results directly from a weakened stomach, and no other treatment equals Mi-o-na to restore strength and health.

When the nerves and muscles are weak, if there is sleeplessness, irritability, and specks before the eyes, when the head aches and there is a dull pain in the back, and there is any distress and heaviness in the stomache, dizziness, and sometimes nausea, the use of Mi-o-na stomach tablets for a few days will make a world of improvement, and continued use for a reasonable time will restore perfect health.

These tablets are not mere digestives; they absolutely strengthen all the organs of digestions, so that there is good appetite, perfect digestion and strong nerves, when they are used.

A large box of Mi-o-na stomach tablets is sold for 50 cents by E. J. Jenkins with an absolute guarantee that they will be successful in curing digestion and restoring health, or the money will be refunded. Ask him to show you the liberal guarantee he gives with every 50-cent box of Mi-o-na.

THE NEW VISIBLE

FOX

At Last a Perfect Visible Typewriter

The One Typewriter That Correctly Solves the Objections That Have Always Heretofore Been Made Against "Front Strike" Machines.

Visible writing has always been considered as desirable by practically all typewriter manufacturers, but the difficulties to be overcome in construction in order to secure durability have discouraged the very large adoption of these machines. The invention of the method of assembling the type bars as it is done in the Fox Visible has, however, made possible the use of a wide pivotol bearing in the type hanger, thus insuring the most perfect alignment at all times and a durability that is equal to that claimed for any "basket type" machine. In building this new model, we have all the advantage of the knowledge that we have gained in building and placing the regular Fox models on the market and we are able to avoid all those experiments found in new machines which are so expensive to the purchaser.

Here is a Short Description.

THE TYPE HANGER—The hanger has a pivot bearing 7-16 of an inch wide. This allows the use of a heavy type bar, providing an adjustable pivot bearing which takes up wear as it occurs, thereby giving a permanent alignment that is impossible to secure with a narrow bearing without adjustment, and avoiding the trouble caused where "forced alignment" is necessary. This is the feature that has heretofore been considered as being impossible to secure in a visible writing typewriter. It is found only in the Fox and places the Fox Visible in a class by itself.

TWO COLOR RIBBON—The ribbon movement on this machine is simply perfection. It reverses and oscillates automatically, requiring no attention from the operator from the time it is put on until worn out. When a two color ribbon is used, by simply touching a button on the keyboard the second color is secured instantly without raising the hand or even looking.

THE INTERCHANGEABLE CARRIAGE—The carriage is so constructed that it can be quickly removed and a carriage of different length substituted. One machine can be purchased with different sizes of carriages, thereby effecting a great saving over the ordinary method of buying a long carriage machine complete. The carriage is ball bearing and runs with a tension of only 1 lb.

PERFECT VISIBLE WRITING—The entire line is visible all the time.

THE KEY TENSION—The force required on the part of the operator to print a letter is only 2½ ounces. This is from 25 to 50 per cent. less than any other. It is a vital thing both from the operator's standpoint of less fatigue and the owner's of greater durability.

THE LINE LOCK—When the carriage reaches the end of a line, the keys lock and nothing more can be written until the release button is used or the carriage returned to begin a new line.

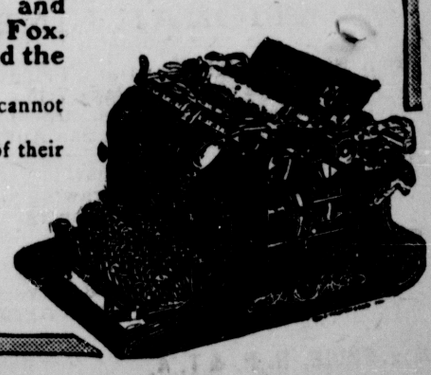

ALUMINUM KEY LEVERS—Key levers are made of aluminum. It is more expensive than steel or wood, but it is very much more desirable.

TABULATOR—The Fox ten stop decimal tabulator is attached when ordered, at slight additional expense. It is the only decimal tabulator in use on a visible typewriter.

Every feature on this machine has been tried out and demonstrated as successful on the Regular Models of the Fox. Unprejudiced experts have without hesitation pronounced the machine a marvel.

Ask your nearest typewriter dealer to show you this machine. If he cannot we will make it easy for you.

The regular models of the Fox are still the most perfect machines of their kind and their manufacture will be continued as before.

DEATH OF MRS. H. C. ROBINSON.

She Was Beloved as Wife and Mother, Neighbor and Friend.

The people of this city were surprised and grieved beyond measure yesterdaymorning by the announcement of the death of Mrs. Amelia B. Robinson, wife of Mr. H. C. Robinson, at the family home at 7:15 o'clock. While Mrs. Robinson had been in failing health for the past two years, and ill for the past two weeks, she was sufficiently improved to be out Saturday, and although she again took a change for the worse on Sunday, the gravity of her condition was not realized by the family and friends until shortly before her death. It was then with that deepest and most poignant sorrow, untempered by premonitions, that the blow fell upon devoted hearts, and the announcement passed from lip to lip in the sorrowing community.

Mrs. Robinson was formerly Miss Amelia B. Oswald, was born in Waller county and came with her father's family to Bryan in early childhood. She was reared in Bryan and has continuously made her home here, and among her most devoted friends were those of a life time. Her age was 48 years, 4 months and 4 days. She was married to Mr. H. C. Robinson in this city May 4, 1881, and her husband and three children, all grown, survive her, H. C. Robinson, Jr., Mrs. Fred Simonds of Austin and Miss Alma Robinson.

Mrs. Robinson was a member of the Presbyterian church and a devout christian. She was devoted to her home and family and found within its charmed circles her greatest happiness. In return for her devotion to loved ones she was held by them in tenderest affection. She was also honored and beloved by her neighbors whose words of praise, coming sincerely from the heart after long association, are among the sweetest tributes to her memory. The sympathy of the community goes out to the sorrowing family in this dark hour.

The funeral service will be held at the family residence this morning at 10 o'clock.

J. D. Jarrott of Amarillo, Mrs. E. K. Herring and Miss Cammie Jarrott of Mt. Calm arrived yesterday for the Jarrott-Barnes wedding which takes place at the Seale ranch near Benchley today.

ATTENTION, COLORED TEACHERS.

The colored teachers of Brazos county are requested to meet at the courthouse Saturday, Nov. 24, at 1 o'clock p. m., to effect an organization of the county teachers' institute for the present school year.

J. Q. Adams, President.

ATTENTION, ELKS.

There will be a regular meeting of the lodge tonight at 8 o'clock sharp. All members who possibly can please be present.

F. C. Oliver,
Exalted Ruler.

Mr. Jacob Frank, a prominent business man of St. Louis, says:

"Your remedy cured me of one of the most obstinate cases of eczema that I have ever known or heard of. My case was of four years' standing on both hands, and had been pronounced incurable by leading skin specialists and physicians of this city. Like all sufferers of itching skin diseases, I tried all remedies that were recommended to me, and found absolutely nothing that did me any good until ZEMO was used. I will be pleased to write any sufferer who doubts this statement. Yours very truly,

NEGRO'S LOT.

Declared Bad In New York and Likely to Be Worse.

New York, Nov. 13.—At the twelfth annual meeting and banquet of the Collegiate club William Jay Schieffelin, chairman of the committee for the general improvement of the industrial conditions of the negroes in New York, declared the lot of the negro in this city was bad and likely to become worse. He said, in part:

"In the north the tendency is to treat the negro with political equality, but with social severity. The recent troubles in the south may be repeated here some time. An example of the way the negro is treated was afforded on the Upper West Side a little while ago. In that and some other cases where whites and negroes quarrel the police generally hit the negro.

"The most disgraceful campaign ever waged in the south has just closed in Georgia. At least twenty of those killed by the mobs were victims of Hoke Smith's campaign."

MONROE EDGE

FORTY-SEVEN DEAD.

All the Bodies But One Were Consumed by the Flames.

Chicago, Nov. 13.—More than half the passengers on an immigrant train on the Baltimore and Ohio railroad which collided with a freight train headon at Woodville, Ind., near Valparaiso, Monday were burned to death. There were forty-seven fatalities, all but one being reported to Hea. Thirty-eight were injured. There were 165 passengers on the train.

The disaster was caused by a blunder of some employe of the road company, but just where the blame lies has not yet been determined. The passenger train, which was loaded with Russian Jews, Bohemians and Poles, all of them recent arrivals in this country, and bound for Chicago or places in the northwest, was the second section of a through train from Baltimore. The engineer of the freight train, No. 96, on instruction received at McCool, Ind., waited at a siding at Babcock, Ind., to allow the immigration train to pass. One report is that the engineer of the freight had not been informed that a passenger train was running in two sections. The other is that the first section of the passenger train carried no lamps or signals of any kind indicating that a second section was close behind. As soon as the first section of the immigrant train had passed the switch at Babcock the freight train, in charge of Engineer Burk and Conductor Moste, started eastward. A light snow was falling, which increased the darkness of the easrly morning, and as the freight was rounding a sharp curve just west of Woodville, the second section of the immirgarnt train came in sight a short distance away, leading toward Chicago at the rate of forty miles an hour. The two trains came together with unslackened speed, and in the crash six passenger coaches and several freight cars were knocked into kindling wood, and together with the locomotives went rolling down the ten-foot embankment. Fire broke out almost instantly in the wreckage, although a number of people were saved by the desperate efforts of the train crew and surviving passengers.

The crash of the collision was so great that a number of farmers and other residents of the neighborhood came hastening to the scene, but they could do nothing but lend assitance to the injured who had already been taken from the wreck. All of the six cars of the immigrantt rain were burned, as were three freight cars.

Relief trains were at once sent out from Chicago and from Valparaiso, Ind., with every available physician, and every possible aid was given to the injured.

A large number of the relatives and passengers on the ill-fated train were in Chicago awaiting their arrival, and when the report was received that many had been killed and injured in a wreck the scenes around the Baltimore and Ohio station were harrowing.

Men were there who had come to this country to escape the massacres in Russia, and who, after months of hard work, had saved enough to pay the passage of members of their families, and the grief when they became acquainted that their efforts had resulted in death to those whom they sought to meet was pitiful.

The Russians had waited around the station all day waiting for news from Woodville, and when, late in the afternoon, a train came in bearing the thirty-eight injured persons, all of whom were taken to Mercy hospital for treatment, itw as with the greatest difficulty that the police were able to open a passageway for the wounded. Several of the foreigners became so excited that they attempted to attack station attaches whose uniforms led them to believe they were employed by the Baltimore and Ohio railroad.

Among the wounded who were brought to this station was Mrs. Anna Chissa, who had come from Warsaw to meet her husband, who has been working here for six months. Mrs. Chissa is blind, and her husband recognized her as she was being carried through the crowd by two policemen. Before the officers coulds top him he fell across the stretcher, carrying it to the ground and kissing his wife repeatedly. She recognized his voice, and they clung to each other so desperately that it required the efforts of both policemen to force them apart. Chissa struggled so fiercely that it was necessary to place him under arrest. He was released after being taken out of the station. Oothers whose relatives were among the injured begged to be allowed to take them to their homes, but the police were inexorable, and all of the injured were taken to the hospital, where, it is believed, they will receive better care than their friends may be able to give them.

At the hospital it was stated that for some time it would be impossible to predict the result in the cases of several of the injured.
